4-AXIS E-E-A-T RADAR DIAMOND

Vector Synthesis

Visual balance across Experience, Expertise, Authoritativeness, and Trustworthiness.

💡 **Radar Analysis: The polygon shape indicates balance. An elongated axis shows disproportionate strength, while compressed points pinpoint generative citation barriers.**

OVERALL QUALITY TIER GRADE C MODERATE QUALITY TIER (GRADE C)

Valenzo E-E-A-T Score

Composite quality score judged against Google Search Quality Rater Guidelines (Trust 40%, Experience 20%, Expertise 20%, Authority 20%).

63

OUT OF 100

💡 WHY THIS SCORE?

Your C grade weights Trustworthiness at 40% and Experience, Expertise, and Authoritativeness at 20% each, strictly adhering to Google's Search Quality Rater Guidelines where Trust is the foundational anchor. At 63/100, the score is primarily constrained by Authoritativeness (limited third-party directory citations and external reviews).

Experience	POOR	2 of 6 signals	33%
Expertise	GOOD	5 of 6 signals	83%
Authoritativeness	POOR	0 of 6 signals	0%
Trustworthiness	GOOD	6 of 6 signals	100%

14-Point Technical Signals Audit 8/14 Passing

Deterministic crawler checks validating explicit HTML markers, schemas, and digital entity profiles.

SSL / TLS Encryption (HTTPS) — VERIFIED ✓
Secure transport layer encryption protecting visitors.

About Us / Company Transparency — VERIFIED ✓
Dedicated about or company page proving organizational existence.

Direct Business Contact Info — VERIFIED ✓
Accessible phone, email, or physical location info.

Verified Social Footprint — VERIFIED ✓
Linked presence across LinkedIn, X/Twitter, YouTube, etc.

Schema.org JSON-LD Structured Data — VERIFIED ✓
Machine-readable semantic Organization entity declared to search engines.

Author Bylines & Bio Credentials — VERIFIED ✓
Identifiable subject matter authors on published insights.

LinkedIn Corporate Entity — MISSING ✗
Verified company profile with employee scale and corporate footprint.

G2 Directory Profile — MISSING ✗
Independent customer review validation for software & service credibility.

Capterra Catalog Listing — MISSING ✗

Experience 33/100 POOR

First-hand, practical involvement and demonstrated execution

2/6 passed

WHAT IS WORKING WELL

- ✓ **Original UI demonstration media & visual workflows**
  Original product screenshots, interface previews, and workflow diagrams detected.
- ✓ **Modern technical deployment & responsive architecture**
  Modern responsive viewport, mobile compatibility, and active deployment standards verified.

RECOMMENDED OPTIMIZATION STEPS

- **Share first-hand operational proof, workflow mechanics, and firsthand execution evidence to satisfy the E in E-E-A-T.**
- **Publish 2–3 quantified case studies documenting real customer impact and verified performance metrics.**
- **Add real customer implementation quotes with company names, executive roles, and tangible results.**
- **Implement a self-serve interactive tour or clear booking flow for prospective users.**

Expertise 83/100 GOOD

Demonstrated knowledge, certifications, and depth of terminology

5/6 passed

Authoritativeness 0/100 POOR

Industry standing, external citations, reviews, and co-citations

0/6 passed

Trustworthiness 100/100 GOOD

Security, contact clarity, transparency, and data disclosures

6/6 passed

Executive Remediation Checklist

PRIORITY STEPS

Launch Rank Monk Hub →

Direct actions to establish high E-E-A-T grounding and increase AI search recommendations

TECHNICAL SCHEMA

Expand Schema to Service & FAQPage JSON-LD

Organization schema is verified. Now add granular Service, Offer, and FAQPage JSON-LD schemas to dominate AI answer engines.

EXPERIENCE PROOF

Publish Quantified Case Studies

Add 2–3 client operational success stories with verified metrics to prove hands-on Experience.

AUTHOR AUTHORITY

Add Verified Author Bylines

Include named author credentials and links to LinkedIn profiles on all educational articles to satisfy Expertise.

THIRD-PARTY TRUST

Secure G2 & Capterra Profiles

Claim and optimize your brand profiles on independent software directories to anchor AI model grounding.

AEO PROTOCOL

Publish Standard llms.txt File

Expose a canonical llms.txt file at your domain root (https://domain/llms.txt) to prevent AI hallucinations.

TRUST COMPLIANCE

Footer Corporate Governance Details

Terms & Privacy are verified. Ensure registered physical corporate address and company registration numbers are clear site-wide.
